# Team Roles

**Resource Manager:**
- Make sure that all questions are team questions. Don’t let your team stay stuck!
  - *What team question can we ask the teacher?*
  - *Are we sure that no one here can answer the question?*

**Facilitator:**
- Keep your team together. Make sure everyone’s ideas are heard.
  - *How do you see it? Does anyone see it a different way?*
  - *How is this related to growth factor? To Figure 0?*
  - *How are the two pieces of information related?*

**Recorder/Reporter:**
- Make sure your teammates can see each other’s work and connections. You may want to sketch the information on scratch paper to put in the middle of your table so your team can talk about it.
  - *How can we show that connection?*
  - *Should I make a picture for the middle of the table?*
  - *Can you explain that idea again?*
  - *How does that relate to the situation?*

**Task Manager:**
- Make sure all the talking is within your team and is helping you accomplish the task. Eliminate side conversations.
  - *Let’s get focused!*
  - *Let’s keep thinking – don’t give up!*
