Color-Rama

**Game Rules**

1. Each player chooses one of the colors on the Color-Rama Game board. No two players may choose the same color.

2. Place a marker on the orange square.

3. The players take turns flipping the +/- coin three times to determine how to move the marker. Each time a + comes up, the marker moves one square to the right. Each time a - comes up, the marker moves one square to the left.

4. If the marker lands on your color after the three moves, you win.
