Pyramids

**Directions:** Cut the net out along the outer edges. Then fold along the solid interior lines so that the printing is on the exterior of the resulting solid. Use the shaded tabs to glue the faces together.
Pyramids

Directions: Cut the net out along the outer edges. Then fold along the solid interior lines so that the printing is on the exterior of the resulting solid. Use the shaded tabs to glue the faces together. *Leave the unshaded tabs unglued until after problem 11-22 so that you can view the interior of the pyramid.*
